DANNY FOOLEN

"Born in 1985 and as a teenager there were 2 things I really liked doing: skateboarding and drawing. So I went to art school with the idea of becoming a drawer or painter, but soon I lost all pleasure in drawing and started building instead. I still do that, as well as skateboarding."

"Studio so-on I started to bring together the things I love to do - besides being an artist - in the hope of finding the joy of drawing again. I have succeeded in doing so! Super happy to also be able to make the link with skateboarding in this way!"
